ASSESSORS' REPORT.

There is so much misunderstanding in regard to the legal powers and duties of Assessors, that we think a few words on the subject will not be out of place at this time.

Assessors are sworn to perform their duties faithfully, impartially, and according to law.

The burdens of taxation are intended by law to rest equally upon all. This can only be accomplished by the faithful and fearless discharge of their duties by the assessors. Unequal taxation is unjust taxation. Every dollars worth of property that escapes its just, lawful, burden of taxation imposes an unjust burden on others. Every man exempted from a poll tax who is able to pay one, means that others must pay for him. Equal taxation depends upon proportionate valuations. Property is constantly changing in value and frequent changes in valuations are absolutely necessary to keep pace with altered conditions.

Assessors have absolute power over valuations. A town cannot legally create a special commission to make a valuation of real estate, or legally impose a tax to pay for the services of such a commission. Neither can a sworn board of Assessors be bound by figures or valuations made by such a commission. Therefore the action of this town years ago, when such a commission was created and paid, was illegal. It was the cry of long suffering tax payers for relief from long standing, disproportionate valuations.

The idea which has prevailed to such an extent, that valuations made by that commission, should stand until changed by a similar commission, is wholly erroneous. Another erroneous

idea that has grown to be an accepted fact in this town, is, that men are exempt by law from paying a poll tax, at 70 years of age. The fact is, there never was a law in this state to exempt from poll tax at any age. Assessors have power to exempt "The polls and estates of all persons, who by reason of age, infirmity and poverty are in their judgment unable to contribute toward the public charges." It is simply a question of financial ability to pay—yet some of our wealthiest citizens have paid no poll taxes for 12 to 15 years, until this year. It is not their fault—they were not taxed. This year 33 more polls pay tax than paid last year, amounting to \$99.00. Reference to the annual report of the board of state assessors for 1900, shows that the towns and cities in Penobscot County exempted from poll tax, all the way from 2 per cent to 27.7 per cent of all the polls. A sort of go-as-you-please arrangement, regardless of law. Last year Bangor exempted 4.2 per cent of the whole number of polls. This year Hermon exempts 4.6 per cent of the whole number. In 1900 the sum of \$2150 money at interest was taxed in Hermon which is about the average for the past 20 years—this year \$19315 00 has been taxed exclusive of abatements, which is \$2717.00 more than Brewer, Hampden, Newburgh, Carmel, Etna, Stetson, Levant, Kenduskeag, Glenburn and Hermon all together (10 towns) taxed in 1900. Twelve persons have been taxed for money at interest this year that have not been taxed previously. The \$17165.00 money at interest taxed this year in excess of last year yields a tax of \$274.64 which added to \$99.00 paid by additional poll tax payers makes the neat sum of \$373.64 which other tax payers have been relieved of paying. The average tax rate in Penobscot County last year was 22.9 mills or \$8.90 a thousand more than the rate in Hermon. Our showing this year will be equally as good.

We submit the following report of the
